

Purity & Impurity

Learning Objectives

In this lesson, I will:

Define 'purification'

Compare 'real impurity' and the 'state of impurity'

Suggest how to remove impurities

Key Words

Purification - طَهَارَةٌ

Real impurity

State of impurity

T Thinking Starter

Imagine a house with a shining, clean door. When you open the door, you find it very messy and dirty inside. How would you feel?

What Is Purification?

Purification (طَهَارَةٌ) means making yourself clean and pure.

- ★ We purify our **bodies** by making wudu, taking ghusl, brushing our teeth, and wearing clean clothes. We also keep our homes and the places around us neat and tidy.
- ★ We also clean our **hearts and minds** from bad feelings and bad thoughts. Instead, we fill them with good intentions and love for Allah and His creation.

Taking care of both our inner and outer purification is super important. Allah loves those who keep themselves clean on the inside and outside—and He promises them great rewards!

When our bodies are clean and our hearts are shining, we find it easier to focus and worship Allah beautifully. Are you ready to start shining in and out?

I polish my heart and body to stay close to Allah!

Task 1

Colour all the words that describe the kind of friend you would like:

SMELLY - ANGRY - MESSY - DIRTY

GREEDY - NEAT - PROUD - SWEET

GENEROUS - LOVING - TIDY - MEAN

JEALOUS - HELPFUL

Types of Impurity

Before we pray, there are two types of impurities we must remove:

- 1 **Real impurity:** Something dirty that you can see, smell, or feel, such as urine and stool. You need to make sure that there is no 'real impurity' on your body, clothes, and place of prayer.
- 2 **State of impurity:** You can't see, smell, or feel anything dirty on your body, but you are still unclean. This is called a 'state of impurity'. Some actions that put you in a 'state of impurity' are urinating, excreting, passing wind, and falling into deep sleep.

Purity is like a special key that unlocks the door to salah. If we don't clean ourselves properly, it's like trying to open a door with the wrong key—it just won't work!

Task 2

Complete the flowchart with the correct details:

How Do We Remove Impurities?

- 1 Real impurities** can get onto our bodies, clothes, or on the ground where we want to pray.

Where is the impurity?

How do you clean it?

Body and clothes

Wash the dirty area until the impurity disappears.

If there's still a light stain left on your clothes after washing them well, that's okay.

Ground

For a flowing impurity (such as urine), pour water over it until it's gone.

For a solid impurity (such as stool), remove it first, then wash the spot with water until it's clean.

- 2 State of impurity:** To purify yourself, you will perform wudu or ghusl using clean water. If you don't have clean water or can't use it, then you should perform tayammum.

Task 3

Read the scenarios and answer the questions.

Uncle Zubayr has found some animal stool on the masjid floor. How should he clean this up?

Khalid's little brother urinated on him whilst sitting on his lap. How should Khalid clean his clothes?

I Act On What I Learn

Before I pray, I will make sure that my body, clothes, and place of prayer are clean and tidy.

P Progress Check

1. What is purification?

☐

2. Give an example of a 'real impurity' and a 'state of impurity'.

☐

3. How do we purify our bodies from real impurities?

☐
